

TAGQUEST

SAFEGUARD

There is nothing worse than finding out that one of your good customers just bought a product from one of your competitors...
Don't let that happen to you!

TAGQUEST SAFEGUARD

Helping You Keep *YOUR* Customers *YOURS*

- TagQuest Safeguard keeps you informed. We'll let you know when one of your good customers is applying for an auto loan, mortgage loan, insurance, or new credit cards.
- TagQuest has relationships with the three National Credit Bureaus. This allows us to receive a live feed of every customer that has had their credit checked for a loan within the past 24 hours.
- TagQuest scrubs this list of daily credit reports against your list of past and current customers.
- TagQuest then finds, matches, and informs you immediately. This matching process gives you an opportunity to get in touch with your customers before they make the mistake of purchasing product through one of your competitors.
