

TAGQUEST

Static Leads

Static Leads

Static Leads and Live Transfers are probably the most exclusive lead you can buy. When you contract with a TagQuest for Live Transfers the Call Center is calling on behalf of you getting a potential customer interested and qualified before you even talk to them. TagQuest starts by using tailored data to your ideal prospect then the call center goes to work calling the potential clients asking them a number of qualifying questions and recording the information, once they have an interested and pre-qualified prospect they set an appointment for you to call them back. Then the call center emails you the prospects information to you to call them back. Meaning the lead is exclusive to just you and they are never resold.
